

**Study the following.**

To say a fraction, say the numerator (top number) first and then say the denominator (bottom number) as the following:

Denominator number	Denominator word	Examples	Say the example like this.
2	half halves	1/2 2/2	one half two halves
3	third thirds	1/3 2/3	one third two thirds
4	fourth fourths	1/4 2/4	one fourth two fourths
5	fifth fifths	1/5 3/5	one fifth three fifths
6	sixth sixths	1/6 5/6	one sixth five sixths
21	twenty-first twenty-firsts	1/21 8/21	one twenty-first eight twenty-firsts
22	twenty-second twenty-seconds	1/22 10/22	one twenty-second ten twenty-seconds
23	twenty-third twenty-thirds	1/23 3/23	one twenty-third three twenty-thirds
Etc.			

**Write on the blank how you would say the fraction in words.**

1.  $1/2$  \_\_\_\_\_

2.  $15/19$  \_\_\_\_\_

3.  $2/3$  \_\_\_\_\_

4.  $21/35$  \_\_\_\_\_

5.  $1/4$  \_\_\_\_\_

6.  $18/41$  \_\_\_\_\_

7.  $1/9$  \_\_\_\_\_

8.  $6/52$  \_\_\_\_\_

9.  $11/12$  \_\_\_\_\_

10.  $9/67$  \_\_\_\_\_
